Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal woman auffers severely she needs treatment and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examina tion; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without Lynn, Mass.

The following letter from Miss MARIE F. Johnson, Centralia, Ps., shows what neglect will do, and tells how Mrs Pinkham helped her: "My health became so poor that I

had to leave school. I was tired all the time, and had dreadful pains in my side and back. I was also troubled with irregularity of menses. I was very weak, and lost so much fiesh that my friends became slarmed. My mother, who is a firm believer in your remedies from experience, thought per-

haps they might benefit me, and wrote you for advice. I followed the advice you gave, and used Lydia E. Pinkham's Vegetable Compound and Liver Pills as you directed, and am now as well as I aver was. I have granted flesh and have

Two short years have suffixed to show the shopping public of Middletown and the vicinage that cannot afford to be indifferent to any line of goods that form a part of the TOMPKINS system.

The demonstration will continue for two important reasons

First-Many people have yet to learn their true interests in relation to the Tompkins store.

The rapid growth and exhibition, now appearing daily, of the splendid stock assembled for spring, 1899, creates growing confidence that this year will mark a great increase in our sales.

Experience tells us that appreciation is bestowed wherever it is due. The anticipations of this business are based upon a consciousness of increased merit in both merchandise and methods.

Cotton flabres are prettler and in larger variety this year than ever before. And there is much more now ity than near! Nothwithstanding this he choicest are already griving somewhat scence. We anticipated all this and advanting markets and heavy demands do not now us at all. We have more cotton dress goods and put the than he we erer before here are the one store in this city. All the new circles are here of course. The new Organdies with the soft, unwinkable fluish. The new timing of iques. Fires are just as low as they can be add consequently lower than you will and them generally.
